ABOUT ME

I am a final-year Diploma in Computer Science student at Tshwane University of Technology (TUT) eMalahleni, within the Faculty of ICT. My studies span Software Programming, Mobile Device Programming, Database Design and System Analysis. I am a team player who communicates clearly and takes ownership of my responsibilities. I am seeking a minimum 6-month Work-Integrated Learning internship in 2026 where I can apply my technical skills in a real-world environment and grow as a developer.

EDUCATION

Diploma in Computer Science 2022 – 2026
Tshwane University of Technology (TUT) — eMalahleni Campus, Faculty of ICT

Relevant Modules:

- Software Programming (Java, Object-Oriented Programming)
- Internet Programming (HTML, CSS, JavaScript)
- Database Design and Administration (SQL, MySQL)
- Mobile Device Programming (Kotlin, Android)
- System Analysis and Design
- Software Project Management.

PROJECTS

MediLink — Hospital Patient Management System 2026

Group Academic Project | GitHub: github.com/MediLinkTeam/MediLink

- Full-stack hospital management system designed to reduce patient waiting times in South African public healthcare
- Features role-based dashboards for clerks, doctors, nurses and managers
- Implemented triage routing logic, digital prescription management and patient queue tracking
- Built using Java (JSP), SQL, HTML, CSS and JavaScript; deployed on Apache Tomcat

Stealth Mobile App Project

2026 — Present

Collaborative Project | Confidential

- Co-developing a mobile application with a business partner — details confidential pending further development
- Applying agile methodology, user experience thinking and full-stack mobile development practices
